Subject: RE: Recommend No Comment for Bog Creek Road Final EIS 16-0034-CBP
Date: Monday, March 18, 2019 3:18:56 PM

Hi Lynne,

Thank you for your recommendation. I want to clarify that the Bog Creek Road Project is a Customs and Border Patrol project (CBP) and that it's listed in our Regional database as a Final EIS with a comment letter to be due by 4/2/2019. We had previously rated the project with a lack of objections (LO) at the Draft stage. It's great to hear that the changes in the Final EIS are to help reduce impacts. I agree that we can close this out in the database with no FEIS comment letter, and we will keep the email record for the project file.

Thanks,
Jill

Subject: Recommend No Comment for Bog Creek Road Final EIS 16-0034-CBP

Jill,

I recommend no comment for the Border Patrol's Navy's Final EIS because we made no recommendations to follow-up on in our July 12, 2018 DEIS letter and the changes to the project on the preferred alternative in the FSEIS are all in the direction of reducing impacts to grizzly habitat.

I suggest we print this email with your response for the project file and I will note no comment in the database.
